Title: SEMICONDUCTOR HOUSINGS HAVING COUPLING COATINGS (as amended)

---

**IN THE ABSTRACT**

Please replace the Abstract with the following rewritten paragraph:

**Abstract**

~~Coupling organic coatings in semiconductor housings~~

A semiconductor housing having a coupling coating is disclosed. In one embodiment,  
the semiconductor housing includes A a leadframe for equipping with a semiconductor chip  
(2) and for enveloping with a polymer material (4), to which a polymer layer (5) has been  
applied. The polymer layer (5) has end groups (6) or (7) which possess particularly good  
adhesion to the polymer material (4) or the surface of the flat conductor (1).
